

- for hands and facial application
- regenerative W/O emulsion
- with high lipid level, intensively lipid-replenishing
- also recommended as concomitant skin care for the therapy of irritated skin
- silicone-free
- perfumed

PHYSIODERM[®] CREME

Highly-effective skin care cream for extremely stressed and very dry skin

PHYSIODERM® CREME

Highly-effective skin care cream for extremely stressed and very dry skin

- for hands and facial application
- regenerative W/O emulsion
- with high lipid level, intensively lipid-replenishing
- also recommended as concomitant skin care for the therapy of irritated skin
- silicone-free
- perfumed

PRODUCT PROPERTIES / APPLICATION AREA:

PHYSIODERM® CREME is a re-moisturizing cream which cares for occupationally stressed skin and which helps to support the regeneration process of damaged skin, if applied regularly. PHYSIODERM® CREME contains the moisture-binding substance sorbitol as well as isopropyl myristate as a re-moisturizing agent.

The cream increases the skin's ability to retain water, supports the regeneration of the skin's natural protective layer and improves the skin's smoothness. PHYSIODERM® CREME also helps to foster the regeneration process when the skin suffers from dermatitis or eczema. For this reason, the cream is also recommended as concomitant skin care for the therapy of irritated skin. PHYSIODERM® CREME has a lipid level of approximately 30 %.

APPLICATION:

Apply PHYSIODERM® CREME on the clean and dry skin. Rub in the cream evenly, paying particular attention to vulnerable areas such as between the fingers and around the nails.

PRODUCT DESCRIPTION:

White, re-moisturizing cream, W/O emulsion, without parabene, silicone-free and perfumed

TEST SUMMARY:

A test summary is available on request.

DERMATOLOGICAL COMPATIBILITY:

PHYSIODERM® CREME's dermatological compatibility has been carefully tested and proven. A printed certificate is available.

PRODUCT QUALITY:

The product is manufactured according to GMP (GOOD MANUFACTURING PRACTICE) requirements. The bacteria count is microbiologically tested on a regular basis and is under 100 bacteria per gram.

FIRST AID:

If PHYSIODERM® CREME accidentally gets into your eyes, rinse immediately with plenty of lukewarm water. If a burning sensation still persists, consult an eye doctor as measure of precaution.

STORAGE INSTRUCTIONS:

PHYSIODERM® CREME will keep for at least 30 months (from date of manufacture) if stored unopened at room temperature in the original packaging. The Period After Opening (PAO) is indicated on each tube / bottle.

PHYSIODERM[®] CREME

Highly-effective skin care cream for extremely stressed and very dry skin

Suitable DISPENSING SYSTEMS:

ORDERING DATA:

100 ml Tube:
BSW No. 14009003
12 x 100 ml Tube = 1 PU¹⁾

1000 ml Collapsible Bottle:
BSW No. 14009001
6 x 1000 ml Bottle = 1 PU¹⁾

1000 ml Round Bottle:
BSW No. 14009002
10 x 1000 ml Bottle = 1 PU¹⁾

Dispenser VARIOMAT M
(made of robust high-quality steel):
BSW No. 12938004
for 1000 ml Collapsible Bottle

Dispenser VARIOMAT ECO
(made of robust plastic):
BSW No. 13447003
for 1000 ml Collapsible Bottle

1) PU = packaging unit

STATUTORY REGULATIONS:

PHYSIODERM[®] CREME is subject to the EC Cosmetics Directive, but not to the German Chemicals Act or the Hazardous Substances Order. Moreover, skin protection products are received as part of the Personal Protective Equipment (PPE).

ENVIRONMENT:

All tubes and bottles are made of polyethylene and after being completely emptied, they can be disposed of with other polyethylene waste. Packaging is labeled accordingly.
